Health Advocates for Older People

Health Advocates for Older People promotes safe and healthy aging through programs designed to facilitate independent living, physical well-being, and greater social interaction.

Since our founding 39 years ago, Health Advocates for Older People has provided New York City's elderly with the support, tools, and techniques that help them stay healthy, informed, independent, and engaged as they age under the umbrella of our multifaceted Healthy Aging program.

Our work is made possible through the generous support of individuals, foundations, businesses, and government agencies. Thank you for your partnership in serving the elders of our city.
